DECLARATION OF CONFORMITY

DATE: 23/05/2008
REV.: 5

Product: ROTARY VANE PUMPS

Fluid-o-Tech S.r.l. declares under its own responsibility that all the rotary vane pumps manufactured comply with the safety requirements for the use they are designed for, provided that the normal operating conditions indicated in the instruction sheet attached to the product – according to what specified in the Directive 98/37/CE of the European Parliament and of the Council of 22nd June 1998 – are respected.

The product complies with the following Directives:

- *Directive 94/9/CE of the European Parliament and of the Council, of 23rd March 1994, related to equipments and protection devices intended to be used in potentially explosive environments - ATEX.*
- *D.M. 174/04 of the Health Ministry, of 6 april 2004, on materials and devices that may be used in fixed catching, treatment, adduction and distribution installations of waters destined for human use.*

Groups equipped with motor, considered machines ready to be used and therefore CE marked, satisfy the requirements of the following Directives for the member states' legislations approaching:

- *Directive 89/366/CEE of the European Parliament and of the Council, of 3rd May 1989, related to the Electromagnetic Compatibility – EMC.*
- *Directive 73/23/CEE of the European Parliament and of the Council, of 19th February 1973, related to the electric material intended to be used within specified voltage limits – DBT.*
- *Directive 94/9/CE of the European Parliament and of the Council, of 23rd March 1994, related to equipments and protection devices intended to be used in potentially explosive environments - ATEX.*
- *Directive 2002/95/EC of the European Parliament and of the Council, of 27 January 2003, on the restriction of the use of certain hazardous substances in electrical and electronic equipment – RoHS.*

Fluid-o-Tech S.r.l. has referred to the harmonized regulations applicable to the product which the same Directives refer to.

*It is necessary to clarify that for the Directive 94/9/CE relevant to the potentially explosive environments, the product complies with such Directive for applications in environments with characteristics **EEx II 3 G2 D22**, provided that the normal operating conditions indicated in the instruction sheet are respected.*

It is understood that the motor to which the pump is coupled needs to be complying with the same requirements.
