

Rotary vane pump-motor unit GA series

The GA pump-motor unit has been designed to extend the Fluid-o-Tech® rotary vane pump range to the low flow rates. Coupled to a compact but powerful 24 V DC brush or brushless motor, the unit has been designed to deliver a maximum pressure of 10 bar (145 psi) and grant a long service life while fitting in tight spaces.

The pump has a stainless steel housing and carbon graphite parts and it benefits from an integrated pressure relief valve. The use of food grade materials throughout the construction makes it the ideal choice for integration into a wide range of potable water installation.

MAIN APPLICATIONS

- Espresso coffee machines
- Water treatment systems

TECHNICAL INFORMATION

Pump housing material	Stainless steel	Max static pressure	10 bar/145 psi
Pumping chamber	Carbon graphite	Relief valve	Balanced
Ports	1/4 GAS"; 1/4" NPT	Unit weight	1417 gr (3.1 lb) brushless 1664 gr (3.7 lb) brush
Speed limit for brushless motor	3000 rpm
