

Every new **peristaltic pump** manufactured by Fluid-o-Tech is guaranteed to be free of defects in workmanship and material when leaving the factory for a period of 12 months or 500 hours of operation, whichever comes first – excluding tube – from the production date printed on pump label. Fluid-o-Tech will repair or replace at our discretion part or all of the product not conforming to this warranty. Fluid-o-Tech’s responsibility under this warranty is limited to the repair or replacement of defective product returned to us on a D.A.P. basis, providing that our analysis discloses that such part or parts were defective at the time of sale.

The warranty is not recognized if:

- The instructions on how to handle, install or operate the pump are disregarded
- The pump has been disassembled or modified by anyone other than a Fluid-o-Tech (or authorized by Fluid-o-Tech) engineer or repaired with non original components
- The label is missing
- Solid extraneous particles are found in the pump drive mechanism or tube bed
- Obvious signs of excess pressure are evident
- The pump has been utilized for an application for which it was not intended to be used where the operating conditions and/or the pumped liquid were incompatible with the pump itself and this application has not been specifically approved by Fluid-o-Tech
- Normal wear and tear is not covered by the present warranty.

The adjustment or replacement of defective parts made under this warranty will not extend the original warranty period.
